

## Perennials Plant List

Plant Name	Description	Height
<b>Aconitum</b>	<b>Almost an aconite for all seasons, slug-proof alternative to Delphinium, like other plant groups in this list if we are keen on them then there will be far more varieties than listed but in insufficient quantities and in the process of 'bulking up'</b>	
Aconitum carmichaelii 'Cloudy'	Excellent form, large soft blue and white 'monkshood' flowers with dark green shiny foliage in mid-summer. Plant in sun to part shade. poisonous Ht 1m	42"
Aconitum napellus 'Schneewittchen'	Lovely white variety with a silvery shimmer in late summer and cultivated for centuries but rarely offered works in cool shady spots against a dark background.	54"
<b>Actaea</b> (prefer Cimicifuga!)	<b>Our range of small numbers of divisions, for their remarkable leaf shape and colour, pretty fluffy flowers, often scented, attractive berries later in the season. Starting to become better known mainly because they are good shade garden plants, preferring a hint of moisture in the soil</b>	
Actaea 'Black Negligee'	Very large, vigorous, black leaved form, and contrasts with most other plants, with lovely fluffy white spikes of scented flowers Sept-Oct, avoid thin alkaline soils Ht 1.8m	54"
Actaea simplex 'Carbonella'	So much going for it with sumptuous dark, almost black foliage, white, tinged pink, scented fluffy flower spikes, likes shade, but some sun for darker foliage	36"
Actaea cordifolia 'Blickfang'	(New for 2011) (poss A. rubifolia) From Hans Kramer - De Hessenhof, literally 'Eyecatcher' and rightly so, a tall robust striking plant but rarely found, with pure white fluffy flowers Aug-Oct, large upright leaves with deeply cut foliage, certainly has the 'Wow' rather than the 'Ow' factor	54"
Actaea japonica BSWJ8758A 'Cheju Do'	Crug Farm introduction from Chejudo island, S Korea, Outstanding variety always snapped up on the sales table, a shorter form with upright spikes of fluffy white flowers Aug-Oct then dolls-eye berries. Full-part shade. (it's has proved so good that they are now micro-propagating it!)	12"
Actaea simplex 'Mountain Wave'	Rarely offered 'Black Bugbane' with wonderful dark dissected leaves and then a curved (like a shepherds crook) white fluffy flower spike appears on a slender stem.	42"
Actaea simplex 'Queen of Sheba'	(New 2012, Piet Oudorf) One of the tallest (and most scented!) forms with attractive dark foliage a central arching flower spike emerges bearing lovely scented cream fluffy flowers	60"
Actea matsumurae 'White Pearl'	(syn Cimicifuga) This elegant form has large (to 2!) beautiful wands of arching bottle-brush white flowers late summer/autumn + berries to follow for damp shade	42"
Agapanthus 'Back in Black'	Clump forming perennial with green fleshy strappy basal leaves from which emerge tall strong almost black erect stems bearing large umbels tubular, dark purple-blue flowers Ht 70cm	42"
Agapanthus 'Navy Blue'	Some of the deepest blue flowers of it's type, navy-blue flowers and a lighter stripe arising on a slender stem from its dark green strap like leaves	30"
Agapanthus 'Streamline'	This is more compact, semi-dwarf and offers numerous stems of mid-blue flowers so useful for edge of border, also making excellent cut flower, appreciates sun Ht 45cm	18"
Agapanthus 'Torbay'	A hardy, free flowering, deciduous variety with large sky blue flowers in summer, easy and reliable full sun and well drained soil.	24"
Agapanthus 'Twister'	AGM A new distinctive form with the normal green fleshy strappy basal leaves, then lots of stems erupt, bearing white flowers with a blue distinctive base, compact Ht 60cm	24"
Alstroemeria 'Authion'	Very tall variety 3' producing large heads of bright crimson red flowers with a yellow splash on the top petal, very good cut flower (Pull from its base)	36"
Alstroemeria 'Freedom'	Tall heads of soft rose-madder flowers with a touch of peach, a bold white pattern and carmine long lasting cut (or pulled) flower good drainage but not too dry Ht 60cm	24"
Alstroemeria 'Iced Tea'	A very lovely soft peach fading into coffee combination, of reasonable hardiness, mulching overwinter gives added protection	24"
Alstroemeria 'Indian Summer'	A medium sized form with great orange and yellow exotic looking blooms contrasting with attractive dark bronze foliage, great in borders or containers	18"
Alstroemeria hyb (Geraldine Fish)	(From Geraldine Fish) Tall form similar to 'Freedom' but it is a pretty combination of pink and white with contrasting markings, great cut flower	30"
Alstroemeria 'Margarite'	Red-purple stripes on peach background flower, heavy grayed-purple markings with yellow spots on the upper two petals, fewer on the lower petals Ht 60cm	24"

Alstroemeria 'Mauve Majesty'	Unusual coloured form, a good height, and bred for hardiness this has lovely purple-mauve flowers with cream throats in June-Oct and is an excellent cut flower Ht 45cm	18"
Alstroemeria psittacina variegata	Strikingly variegated leaves with white edges provide a good foil for it's very attractive bright red edged dark blue-green tubular flowers	15"
Alstroemeria 'Sweet Laura'	First scented Alstroemeria, a sweet fragrance and exotic golden yellow with a hint of green petals make a real show stopper over a long period, excellent for cutting	30"
Anemone 'Dreaming Swan'	Large flowered form which are soft pink at first fading to white, and the petals purple on the reverse, in Summer/Autumn, clump forming enjoying part shade, much tougher than 'Wild Swan'	18"
Anemone 'Elfin Swan'	The smaller of the 'Swan' series, only 14" high, with its beautiful open white flowers with a purple reverse, ideal for semi-shade not too dry. Much tougher than 'Wild Swan'	14"
Anemone 'Ruffled Swan'	Vigorous and taller form beautiful white semi-double flowers backed blue, continuous flowering from mid June to end of October, sun or shade even deep shade, much tougher than 'Wild Swan'	30"
<b>Anemone nemerosa</b>	<b>We are a fan of the wood anemone and have a wide range of varieties but not all listed here due to insufficient numbers, and are regularly added to. Loves a bit of shade, an edge of woodland (or hedge) position, add a bit of leafmould or compost, to get them going</b>	
Anemone nemerosa 'Big Blush'	A Julian Sutton find, large blush pink flowers, throughout the flowers life pink on the backs and finally the fronts, slowly clumps in shady areas very pretty Ht 15cm	6"
Anemone nemerosa 'Birka'	German variety of this classic lovely woodlander white but with a lovely blue reverse to the petal, likes shade - semi-shade and carpets areas where happy	6"
Anemone nemerosa 'Blue Eyes'	Very beautiful woodlander with a creeping woody stem bearing bisected leaves then early spring lovely double white flowers with a deep blue eye	6"
Anemone nemerosa bracteata	A striking form of this herbaceous woodlander, bearing daisy-like flowers incorporating an occasional green leaf to the crisp white petals, super variety	6"
Anemone nemerosa 'Buckland'	A later form of this woodlander from Keith Wiley, similar to 'Robinsoniana' though slightly pinker, enjoys partial to full shade and can form a pretty clump Ht 15cm	6"
Anemone nemerosa 'Ellenbank Pink'	A lovely wood anemone from Elizabeth Macgregor, white flowers rapidly turning pink as it ages Mar-Apr then dormant, good round base of trees and shrubs Ht 10cm	6"
Anemone nemerosa 'Kentish Pink'	Easy woodlander forming masses of delicate rose pink upward facing flowers, good for ground cover in open dappled woodland retentive soil in light shade	5"
Anemone nemerosa 'Leeds Variety'	Largest flowered and possibly the most vigorous variety, with its lovely white flower touched pink at the centre, good groundcover in dappled shade Ht 15cm	6"
Anemone nemerosa 'Pink Delight'	This shade lover is quite rare, it's woody rhizomes creep along the woodland floor and offers a beautiful delicate double flower having a central boss	5"
Anemone nemerosa 'Pleogers Plena'	Obtained from David Ward of Beth Chatto, this tough wood anemone is a delightfully large double white, will happily gently spread in shade	6"
Anemone nemerosa 'Robinsoniana'	Slightly taller and showier this form found at Oxford Bot Gdn 1870 has lavender-grey buds opening to a beautiful soft pale blue inside loves leafy shady soils	3"
Anemone nemerosa 'Vestal'	Woodland perennial, with a slender rhizome and deeply divided leaves, solitary clean white flowers have 6-7 normal petals surrounding a button-like centre	6"
Anemone nemerosa 'Virescens'	A special form of wood anemone as both the tepals and sepals are green, with the petals reduced to leaves so flowering lasts longer, with a rosette of foliage Ht15cm	6"
Anemone nemerosa 'Westwell Pink'	Lovely clear pink daisy-like flowers in April the flowers open very pale pink and gradually turn to rich pink, takes dappled (but not dry) shade, gently spreading	6"
Anemone nemerosa 'Wyatt's Pink'	Lovely form with the white daisy-like flowers flushed pink in their centre, and the petals curve gently, enjoys dappled shade and retentive soil	6"
Anemone pavonina	I love all anemone's but this is one of my favourites a perennial with classic large open flowers in a range of colours, frustratingly 4 yrs to flower from seed Ht 30cm	12"
Anemone ranunculoides	Naturalises well like A. nemerosa with nice deep green finely divided leaves with lovely bright yellow cup-shaped flowers	6"
Anemone x hybrida 'Honorine Jobert'	I know it spreads, but not irredeemably, and who can resent this lovely pure white 3" flower with the faintest hint of pink as it ages, I love it!	42"
Anemone x hybrida 'Koningin Charlotte'	Super variety with very large rich rose-pink semi-double flower with 10-15 overlapping petals on slender stem will take full sun or semi-shade Flowering Aug -Oct	36"
Anemone x hybrida 'Richard Ahrens'	This beautiful vigorous pale pink semi-double-flowering anemone on slender stems starts blooming in early July into September ,good in shade or sun	36"
Anemone x hybrida 'Whirlwind'	Beautiful, but shorter, pure white semi-double japanese anemone is a lovely addition to any border, early flowering from August through to October	30"
Anemone x lipsiensis	A lovely woodland perennial forming a mat of rhizomes and delighting you in spring with a display of pale lemon yellow flowers with dissected foliage	3"
Anemonella thalictroides	Beautiful small spring woodlander with pretty white sometimes pale pink open flowers above dainty thalicttrum-like foliage prefers moister conditions	4"

Anemonella thalictroides 'Betty Blake'	A true double and a clone from the USA this lovely rare woodlander is a beautiful pale pastel green accompanied by light delicate foliage	6"
Anemonella thalictroides 'Double White'	A rare fully double form of this hardy N. American native woodlander, with almost ghostly fully double white flowers with delicate foliage on wiry stems in spring	6"
Anemonella thalictroides 'Green Hurricane'	Unusual selection N American 'Rue Anemone' tight clump adorned with miniature thalictrum-like foliage topped in spring with bizarre green pinwheel-like flowers Ht 15cm	6"
Anemonella thalictroides 'Pink Flash'	A very rare form of this semi-double hardy N. American native woodlander, with delicate soft pink flowers having a purple rim in spring	6"
Anemonella thalictroides 'Pink Form'	Beautiful small spring woodlander with a lovely pale pink open flowers above dainty thalictrum-like foliage prefers moister shady conditions	6"
Anemonella thalictroides f. rosea 'Oscar Schoaf'	Oscar Schoaf's beautiful double pink form, flowers for absolute ages topping beautiful delicate thalictrum-like light green foliage, stunning!	6"
Angelica anomala	A very striking and thankfully a truly perennial angelica producing tall white umbels up to 6', architectural, plus edible leaves and shoots, perfectly hardy with drainage. Typically Ht 1.2m	48"
Anthericum liliago major	This bulb produces pure white flowers with yellow stamens on a slender stem and the flowers open sequentially up the stems piercing through the foliage. Ht 60cm	24"
Anthriscus sylvestris 'Golden Fleece'	A golden form of 'Cow Parsley' with very pretty golden dainty leaves with white to lilac flowers in the early summer, combine with A. s. 'Ravenswing' lovely!	36"
Anthriscus sylvestris 'Ravenswing'	With it's purple stained open structured leaves and foamy white flowers at height this adds a lovely presence to a shady area, short-lived perennial	36"
Aquilegia vulgaris 'Nivea'	A nursery favourite, this elegant white form lights up any border, with its beautiful flowers, will take full sun and dappled shade, if lucky will self seed, Ht 75cm	36"
<b>Arisaema</b>	<b>The 'Cobra Lilly' is a bit of a 'marmite' plant, people either love it, or have no taste! My grandchildren love them! It is quite hardy in free-draining conditions, and appreciates dryish shade, not liking freezing wet conditions overwinter. More varieties available than listed here, in small quantities and varying sizes</b>	
Arisaema amurense	Another woodland-loving hardy aroid from manchuria with crisped edge leaves and emerald green spathe broadly lined white, enjoying humus rich light shade	12"
Arisaema candidissimum	Shade lover from W. China this 'Striped Cobra Lily' a very attractive form with a pink hooded spathe which has cream vertical stripes, and with three lobed leaves	12"
Arisaema ciliatum	Attractive palm like foliage as well as unusual striped flower, spreads with stolons so will gradually colonise a cool shady border when happy	15"
Arisaema consanguineum	Characterised by their mottled stems and their long striped spathes it is very decorative and this arisaema is fairly easy to grow enjoying woodland shade	12"
Arisaema fargesii	Rare, quite glossy 3 part leaves with a typical brooding hooded spathe of deep chocolate and clear white, deep purple-maroon central spadix, hardy likes shade	18"
Arisaema flavum	Best in light shade, can reach up to 18" lovely yellow spathe sometimes purple at the base, East Africa & Tibet	18"
Arisaema griffithii	Large patterned spathe curled on itself with a long driptip, followed by a pair of trifoliate leaves, like shade, in decent soil very well drained over winter plant 6-8" dp	24"
Arisaema jacquemontii	Starts with 2 leaflets with 5-7 leaflets then the spathe of pale jade green striped white emerges, the tip elongated upturned + curled SEP Pakistan seed expedition	20"
Asclepias incarnata 'Cinderella'	Bee and butterfly magnet, mound forming perennial with umbels of bright pink, nectar rich flowers, midsummer-Autumn, then seed-heads split to reveal silky-hairy seeds Ht 1.2m	48"
Asclepias tuberosa	Delighted to get this plant (as will be your butterflies) if you want a hit of vivid orange in midsummer (who doesn't?) then this is for you, Piet Oudorf prairie plant Ht 75cm	36"
Aster ageratoides 'Asran'	Generous gift from Dr Margaret Stone, with praise about shade tolerance, a spreading form with late summer lavender-blue daisies, dark leaved, on compact bushy plants Ht 50cm	20"
Astilboides tabularis	Unusual in having a huge round leaf (100cm) with central stalk sheltering a towering stem of fluffy white flowers, looks striking in moist shade or semi-shade Ht 1.2m	48"
<b>Astrantia</b>	<b>Hattie's pincushion' sounds much nicer and describes the flowers well. They come in a lovely subtle colour range of light and dark pinks and white, some with greenish tinges. Repays good soil conditions whilst taking sun will favour shade, which can improve flower colour</b>	
Astrantia major 'Burgundy Manor'	AGM seedling from 'Gill Richardson' beautifully large dark red 'pincushion' flowers on reddish-black stems, vigorous variety and repeat flowers, enjoys moist dappled shade Ht 75cm	30"
Astrantia major 'Florence'	A relatively new colour of lavender-pink for this established shade-loving masterwort, flowering May on, and possibly another flush in autumn, better colour in shade	30"
Astrantia major 'Star of Fire'	An outstanding form, a nursery favourite, with deep red bracts tipped black, on a white base of this 'pincushion' flower, loves dappled shade with a touch of moisture Ht 80cm	30"

Astrantia 'Roma'	Very pretty bright soft and unusual pink a sort of 'matt' pink a cleaner colour than many & longer flowering as it's sterile and like other forms, much hardier than it looks	36"
Astrantia major 'Rosa Lee'	New to us (2012) A Clump-forming perennial with lobed green leaves, a striking combination of attractive silver-rose flowers surrounded by deep rose-red bracts	24"
Astrantia major 'Star of Billions'	(New 2015) One of new breed, longer flowering, has lovely clean green foliage topped by it's lovely pin-cushion flower of white-tipped green, hardy, some shade	21"
Astrantia major 'Star of Royals'	New form producing masses of white flushed pink flowers through the growing season, repeat flowering is very much the virtue of this great variety	21"
Astrantia major 'Star of Treasure'	(New 2015) One of new breed, longer flowering, has lovely clean green foliage topped by it's lovely pin-cushion flower of pinky-purple, hardy, some shade	21"
Astrantia ssp involucrata 'Shaggy'	AGM syn 'Margery Fish' (selected by MF!) Exceptionally large pincushion flowerheads with long pointed white bracts tipped green happy in dappled shade Ht 90cm	36"
Astrantia 'Washfield'	New form of 'masterwort' with deeply divided, palmate, mid-green leaves and erect branching stems bearing umbels of dark red pincushion flowers	24"
Astrantia 'Pineview Hybrids'	Seed raised 'Hatties pincushion' with their attractive long lasting flowers in shades from deep pink to white it enjoys full sun - part shade and moist soils	30"
Baptisia australis 'Blueberry Sundae'	Much deeper and more vibrant indigo blue lupin-like flowers than species, this hardy hybrid is a beautiful addition even out of flower with its upright grey-blue leaves Ht 90cm	36"
Bergenia 'Bach'	Another useful 'Elephants Ears' with lovely neat and glossy foliage, red flushed and bronze in winter, in spring gorgeous heads of densely packed palest pink flowers Ht 75cm	30"
Bergenia 'Dragonfly Angel Kiss'	New form with neat clumps of glossy evergreen foliage turning deep claret during winter, in spring in contrast emerges stems bearing white ageing pink flowers, any soil Ht 25cm	10"
Bergenia 'Eden's Magic Giant'	AGM Looking almost tropical, with large rounded rich green leaves, with touches of burgundy in winter, in spring to early summer heads of bright pink flowers Ht 50cm	20"
Bergenia 'Overture'	AGM Tall strikingly magenta flowers with scarlet stems and calyces Feb-Jun (usually avoiding frost) the best glossy red winter foliage, even does dry shade Ht 30cm	12"
Bergenia 'Pink Dragonfly'	(New 2020) Multi-season interest with this drought tolerant perennial, with its luscious bright pink flowers on reddish stems above shiny dark green, turning plum red leaves in winter Ht 30cm	12"
Bergenia 'Spring Fling'	(New 2020) Selected for compactness and quantity of spring flower (red) stems bearing magenta pink flowers and its green leaves turning purple-black in winter, drought tolerant Ht 50cm	19"
Bletilla 'Brigantes'	(New 2018) (Hybrid B. striata x B. ochracea) From Julian Sutton, this chinese orchid has wide pleated leaves, and tall spikes of magenta-pink flowers Ht 75cm	30"
Bletilla striata 'Kuchibeni'	An easy garden 'Hyacinth' orchid , offering a slender spike, carrying many beautiful white, edged pink flowers, enjoys partial shade, and a moist, free draining soil Ht 40cm	15"
Bletilla striata Trilips	A rather beautiful form unusually crimson and is much hardier in the ground than pots, mulch well and drainage overwinter not averse to a bit of sun either/dappled shade Ht 30cm	12"
Brunnera 'Jack Frost'	Shade-loving perennial, with tough, hairy, heart-shaped leaves which are very silver with green veins and blue forget-me-not type flowers in spring	18"
Brunnera macrophylla 'Jack the Giant'	New 2021 An outstandingly large variety, with super-large leaves of veined silver, topped in spring with beautiful forget-me-no blue flowers, good in shady areas Ht 60cm	24"
Brunnera macrophylla 'Mr Morse'	Good in shade or partial shade, sprays of pure white flowers above neat clumps of heart-shaped foliage with wonderful silvery patterns late spring	15"
Brunnera macrophylla 'Silver Heart'	Seriously lovely new (2014) variety with large silver-grey filigree on a heart shaped leaf with a typical forget-me-not blue flower in late spring	15"
Calamagrostis brachytrica	Late summer this grass sends rockets of 4" bottlebrush flower spikes on slender stems erupting from its depths, try at the front of border and be surprised!	48"
Calamagrostis x acutiflora 'Avalanche'	Brighter form of 'Overdam' selected for it's wide stripe and creamy flowers that appear in mid-summer and turn golden in autumn, full sun	54"
Calamagrostis x acutiflora 'Karl Foerster'	A taller pure green form of this grass, very upright, bearing stiff purplish flowers ageing soft pink, a really good upright statement for most of the winter too	60"
Calamagrostis x acutiflora 'Overdam'	Very upright grass with striking green and white leaves bearing stiff purplish flowers ageing pink, has autumn colour but looks great in winter	54"
Calamagrostis emodensis	This hardy grass is a good addition to any border good height to blend with mid-sized plants with an attractive long-lasting drooping large straw coloured flower-head Ht 75cm	30"
Campanula latifolia 'Witte Wieven'	(white female spirits)De Hessenhof, due to many large white open bells on upright stems that shine out especially effective in shady areas, or a dark background Ht 1m	36"
Cardamine californica	Beautiful upright perennial with clusters of white-pale-pink flowers contrasting dark green foliage, spreading fleshy rootstock, leafy moist(ish) well drained shade Ht 20cm	15"

Cardamine diphylla 'Eco Cut Leaf'	Beautiful heavily serrated shiny dark green leaves, sometimes evergreen, bearing in spring stem bearing clusters of pendant white flowers, shade to pt shade	12"
Cardamine glanduligera	A choice gently spreading woodland perennial with rich deep green dissected leaf and then in spring dark pink-purple flowers backed by green bracts	6"
Cardamine heptaphylla	Woodlander, forms a clump of divided finely toothed leaves from which emerges short stems bearing clusters of chalky white four petalled flowers in spring	12"
Cardamine kitaibelii	The flowers in Mar-Apr are beautiful creamy pale yellow, enhanced by dark green cut leaves, emerging in late winter, dormant late summer v.hardy, loves shade	9"
Cardamine macrophylla	A beautiful woodland plant with large divided palmate leaf then bearing stems bearing heads of rich lilac pink flowers, stoloniferous so makes larger plant yearly Ht 45cm	18"
Cardamine maxima	From Dan Hinkley via Crug Farm from pretty tri-foliolate leaves emerge stems bearing large clear white flowers, enjoying deciduous shade not too wet in winter Ht 20cm	15"
Cardamine pratensis	Known as 'Lady's Smock' this very lovely shade and moisture loving perennial has delicate pink flowers in early spring	9"
Cardamine pratensis flore pleno	A beautiful double flowered form of 'Lady's Smock' of delicate lilac-pink flowers in early spring	9"
Cardamine trifolia	Low growing and creeping habit ideal for edging a shady border, topped by pretty clean white flowers, evergreen foliage tinged purple in winter	6"
Cardamine waldsteinii	Pretty white form of this 'Lady's Smock' with a crook shaped stem emerging in spring in shade offering up its delicate charm with attractive foliage	9"
Cardamine yezoensis BSWJ4659	Collected in S. Korea - Crug Farm, perennial gently spreading rhizomes, with pointed green leaves and tall stem bearing clusters of white flowers spring/summer Ht 30cm	12"
Carex comans 'Milk Chocolate'	Offers a lovely soft contrast to neighbouring plants with its soft tactile mounds of slender milk chocolate coloured leaves (not edible!) which sway with the breeze, lovely Ht 45cm	18"
Carex oshimensis 'Everillo'	This sedge for shade forms a wonderful arching mound, intially with lime-green leaves changing to rich gold and staying golden-yellow loks good all year round	15"
Carex testacea 'Prairy Fire'	A wonderful everbronze ornamental grass that will light up your border all year round, slender orange-highlighted green-bronze leaves turn deep orange in full sun Ht 75cm	36"
Cenophyllum denudatum	'Baltic Parsley' lovely clump-forming, perennial with finely divided, dark green leaves and umbels of white flowers from midsummer blends with naturalistic planting	39"
Chasmanthium latifolium	Sea Oats' Forms a beautiful cluster of slender stems softened by broad bladed leaves then topped by individual spikelet of oat like flowers, loved by florists Ht 60cm	24"
Chaerophyllum azoricum	Rare, only found and endemic to, the Azores has typical 'cow parsley' foliage and umbel-like white flower head	24"
Cirsium rivulare Atropurpurea	A 'Chelsea' favourite, tall branching thistle-like plant, each of its fresh green spiky stems terminating in a group of richly coloured long lasting crimson thistle-like flowers loved by bee's and insects	60"
Cirsium rivulare 'Trevor's Blue Wonder'	The wonder is why blue is in the name, it's lovely deep heather-purple thistle-like flower contrasting beautifully with silver-purple stems, flowers mid-late summer Ht 1m	36"
Convallaria majalis	Lily of the Valley' One of my Mum's favourite's (and possibly most Mum's!) probably the plant most easy to recognise, its creamy white flowers are beautifully fragrant, sometimes needs patience, and good drainage to establish, and a bit of leaf mould helps too!	6"
Convallaria majalis 'Berlin Giant'	This form is bigger in all it's parts, giving you even bigger creamy white blooms, not qualified to say whether it has a bigger fragrance!	12"
Convallaria majalis 'Bordeaux'	Nearly double the size of a traditional 'Lily of the Valley' with nodding, bell-shaped, fragrant white flowers and paired elliptic leaves, so it's twice as lovely!	12"
Convallaria majalis var. rosea	Old favourite (and Mum's) 'lilly of the valley' but with lovely pendulous mauve-pink bell-shaped (beautiful smelling) flowers repays good drainage (with a bit of compost)	6"
Convallaria majalis 'Vic Pawlowski's Gold'	Dark green leaves closely striped length-wise with gold (looks nicer than it sounds!) and those gorgeous smelling nodding bell-shaped white flowers	6"
Corydalis 'Coptons Blue'	This is from Tim Ingram, a vigorous form of this beautiful genus, with electric blue flowers above seductively attractive fresh green foliage, moist dappled shade Ht 30cm	12"
Corydalis 'Kingfisher'	A striking cross of C. cashmeriana x C. flexuosa that offers a vigorous form which delivers a constant supply of typically wonderful flowers of Sky-Blue	12"
Corydalis 'Korns Purple'	Selected by De Hessenhof of this beautiful blue form with a hint of purple, distinctive pretty feathery bright green foliage, liking good moist soil with dappled shade Ht 30cm	12"
Corydalis 'Spinners'	(elata x flexuosa) flowers for ages from an early electric blue on upright stems and a distinctive red flush mounds into a ferny bush of fresh apple-green leaves Ht 30cm	12"
Corydalis 'Silver Spectre'	Relatively new tuberous member of the corydalis family with reasonably evergreen, marked silver, delicate foliage with white, tipped purple flowers	9"
Corydalis temulifolia 'Chocolate Star'	(New 2013)Very dark chocolate coloured foliage then in spring emerge wonderful pale lilac blue flowers, tends to favour moister soils dry in summer	15"

Crococsmia 'Columbus'	Clump-forming corm producing upright lance-shaped leaves midsummer to autumn orange buds open to golden-yellow flowers on branching stems flushed purple Ht 80cm	30"
Crococsmia 'Ellenbank Firecrest'	From Elizabeth MacGregor a pretty form with small golden-yellow flowers each petal beautifully edged with warm orange, compact, floriferous and eye-catching! Ht 60cm	24"
Crococsmia paniculata 'Cally Greyleaf'	Wide heavily pleated grey-green leaves and on top of dark purple stems in late summer large slender funnel shaped orange and yellow flowers, deciduous Ht 1.2m	48"
Crococsmia 'Pauls Best Yellow'	Outstanding variety, flowering on the arching top of stem accentuates the large, early, sunshine yellow flowers prefers sun, well drained over winter Ht 90cm	36"
Crococsmia x crocosmifolia 'Babylon'	Stood out for me at the RHS Wisley trials with its upright habit with bright green sword-shaped leaves, with enormous blooms of fiery-red funnel-shaped flowers Ht 75cm	30"
Crococsmia x crocosmoides 'Lucifer'	AGM Well known for very good reason, as its tall, self supporting and strikingly good looking with deep red flowers on stiff sword-like leaves, don't be put off by its popularity	48"
Crococsmia 'Star of the East'	A remarkably large star-shaped soft orange flowers arise on slender stems from a sheaf of sword shaped leaves, and one the last of its type to flower	30"
Cyclamen coum	Lovely spring flowering corm with white or pink flowers with wonderful silver-splashed coloured round leaves, good in shady areas, around trees etc	6"
Cyclamen coum 'Silver Leaf Form'	Lovely spring flowering corm with white or pink flowers with wonderful silver (splashed green) coloured round leaves, good in shady + dry areas	6"
Cyclamen hederifolium	Beautiful just in leaf, which is heavily patterned and pointed like ivy, pink or white flowers of this autumn flowering cyclamen enjoying shade or semi shade	6"
Dactylorhiza fuchsii	This 'Common Spotted' orchid prefers neutral to slightly acid soil, add leaf mould, or grit, to improve drainage, beautiful lilac flower spike appearing in spring, hibernates in winter Ht 40cm	15"
Dactylorhiza v. junialis	This 'Leopard' orchid (believed hyb) prefers neutral soil, moist, well drained soil, lovely spotted leaves robust pink flower spike appearing in spring, hibernates in winter Ht 40cm	15"
<b>Dicentra</b>	<b>Their fleshy stems that belie their toughness, and they all seem to have really attractive foliage. They generally enjoy shade and some will colonise even the most tricky spots</b>	
Dicentra 'Amore Pink'	(New 2015) New introduction this is a beautiful woodland plant with silver-blue green foliage topped by delicate dangling sugar pink heart shaped flowers, hardy	12"
Dicentra cucullaria 'Pittsburg'	A lovely little clump forming species, this cultivar has soft grey, ferny foliage, and in spring white flowers flushed pink and amber-yellow bases, semi-shade Ht 10cm	4"
Dicentra 'Filigree'	Possibly the original D.'Stuart Boothman' but propagation by seed etc changed it, dark pink flowers held above distinctive dissected leaves, lovely shade lover	12"
Dicentra formosa 'Bacchanal'	Spreading woodland perennial with attractive grey-green foliage and short stems bearing deep crimson flowers late spring early summer, so good in shade	12"
Dicentra formosa 'Stuart Boothman'	The leaves of silver-grey contrast well with the dusky-pink pendant 'Dutchmans breechs' flowers, loves shade and will cover ground!	12"
Dicentra macrantha	Cool shade lover with branching stems finely-cut bronzed-green leaves and pale greenish-yellow flowers, long and narrow, dangling like elegant ear-rings	18"
Dicentra spectabilis 'Gold Heart'	(New 2013) (now Lamprocapnos) Golden yellow foliage emerges in early spring and later rose-pink broken hearts appear that open in succession as the stems elongate	30"
Dicentra spectabilis 'Valentine'	(New 2013) (now Lamprocapnos) Arching dark burgundy stems with delicate ferny foliage, spikes of elegant cherry-red, heart-shaped blooms with white tips late spring to early summer	30"
Dicentra spectabilis Alba	(now Lamprocapnos) This is the delicate white 'bleeding heart' contrasting with its apple-green ferny foliage, looks lovely hanging over a path	30"
Dierama igneum	From Natal to the Eastern Cape free flowering of rich coral or salmon pink with whitish bracts, clump forming mid July onwards. Shorter variety	24"
Dierama pulcherrimum	The wonderful 'Angels Fishing Rod' with slender stems arising from iris-like leaves, bearing lovely pendular bell-shaped rosy-pink flowers all summer-well drained	42"
Digitalis ferruginea	The aptly named 'Rusty Foxglove' this is shorter and more slender than D. purpurea, with its creamy-brown flowers, touched pink, more tightly packed up the stem	36"
Digitalis lanata 'Café Crème'	Woolly Foxglove' long lived form, upright, with dark strappy leaves with spikes bearing coffee coloured tubular flowers with stripes/splashes of yellow and purple, midsummer Ht 60cm	23"
Digitalis purpurea 'Sutton's Apricot'	Lovely form of 'foxglove' with stately spires of tubular soft apricot-pink flowers which appear in June and July held above rosettes of large, hairy, dark green leaves Ht 90cm	36"
Disporopsis pernyi	Another tough woodlander, not a real Solomons Seal but a good alternative, an evergreen with pure white, lemon scented flowers gracefully droop from arching black spotted stalks in late spring, followed by black berries	18"
Disporum 'Night Heron'	Upright new fresh chocolately-black stems in April, & dangling pale yellow flowers at leaf axels into May, another Dan Hinkley shade-lover from Sichuan China	48"

Disporum cantoniense 'Green Giant'	Upright new fresh chocolately-black stems in April, & dangling pale yellow flowers at leaf axels into May, another Dan Hinkley shade-lover from Sichuan China	72"
Disporum sessile variegatum	Gently spreading member of the 'solomons seal' family, it has variegated leaves, neatly striped white, it lightens the drier shadier areas that it enjoys	15"
Echinacea purpurea	Late season perennial good with grasses and other 'prairie' plants with large open purple 'daisy-like' flowers with big dark central button, dislikes winter wet	30"
Echinacea purpurea 'Magnus'	Good taller form, reliable, with narrow leaves and large daisy flowers with drooping deep pink petals and an orange-brown central cone full sun any soil type	36"
Echinacea purpurea 'White Swan'	More reliable variety, with bold pale green daisy flowers that appear white until you get them in a certain light, with grey-yellow centres, fertile soil with sun	30"
Echinops ritro	A striking upright hardy herbaceous perennial with prickly dark green leaves, silver stems bearing globes of violet-blue flower heads attractive even in bud, bee magnets Ht 75cm	30"
Echinops ritro 'Vietch's Blue'	It's steely blue spikes are just as good in bud as in flower, opening to a vibrant deep metallic blue globe loved by bees, above spiny cobwebbed leaves, well drained soil, sun Ht 90cm	35"
<b>Epimediums</b>	<b>We have a lot! Enough to have a separate list on our plants page!</b>	
Eragrostis spectabilis	(Purple Love Grass) From USA clump-forming deciduous grass, in summer topped by airy clouds of small red-purple flowers fading to caramel in autumn Ht 45cm	18"
Eragrostis trichodes	'Sand love grass' This N. American native offers outstandingly large sprays of fine flowers in late summer, can tolerate dry conditions	30"
<b>Eranthis</b>	<b>Over the years we have accumulated a number of different varieties, none in quantity email for any specific requests</b>	
Eranthis hyemalis	AGM Native European woodlander early to flower, efficient ground cover plant, of pure golden yellow cupped flower with green ruff producing a bright display Ht 12cm	5"
Eranthis hyemalis 'All Saints'	(Double Grp) Discovered in Suffolk 2009 A green-yellow semi-filled form (fertile) similar to, but distinct from 'Noel Ayres' Ht 12cm	5"
Eranthis hyemalis 'Andenken an Johannes Raschke	Really rare, (and the price reflects that!) and newly discovered in Germany this a filled and frilled Green Double, as the flowers age they turn yellower Ht 12cm	5"
Eranthis hyemalis 'Birte'	A lovely single from Denmark, with a flower that is a creamy light yellow, later flowering than the other creamy forms Ht 12cm	5"
Eranthis hyemalis 'Clare Swales'	Very rare, and rarely offered, this really pretty form is a semi double with 10-12 sepals which are long and narrow in shape Ht 12cm	5"
Eranthis hyemalis 'Dooze'	A double yellow English form an early and very tall semi-filled flower form, sepals curling inwards Ht 12cm	5"
Eranthis hyemalis 'Euan Bunclark'	This is an outstanding variety, not only does it have a very large golden yellow flower above its green ruff, the petals on it are dissected, so very distinctive Ht 12cm	5"
Eranthis hyemalis 'Grunspecht'	Double Group Semi filled green-yellow cultivar the outside sepals are green and the inside are yellow Ht 12cm	5"
Eranthis hyemalis 'Hafod'	A Joe Sharman double introduction, possibly a E.hyemalis x E. cilicica cross, reasonably tall yellow semi-filled flowers, some yrs 10-12 sepals others 5-7 sepals Ht 12cm	5"
Eranthis hyemalis 'Lady Lamortagne'	Older double form, a filled yellow flower, taller and more vigorous, flowering in the middle of the season Ht 15cm	6"
Eranthis hyemalis 'Noel Ayres'	Discovered at Anglesey Abbey and named after the Head Gardener filled double green yellow flowers, some years more green than yellow and other years reversed Ht 12cm	5"
Eranthis hyemalis 'Orange Glow'	Another variety of 'Winter Aconite' that is quite individual, this when young, from bud onwards is distinctly darker with an orange tint to the flowers above its green ruff Ht 10cm	4"
Eranthis hyemalis 'Orange Pips'	A single orange form and earlier to flower than E. 'Orange Glow' with stamens more intensely coloured Ht 12cm	5"
Eranthis hyemalis 'Pauline'	Strikingly different 'Winter Aconite' with its chalky pale yellow flower held above its green ruff, always a delight to see so early in the year, appreciating shade Ht 10cm	4"
Eranthis hyemalis 'Schlyters Gigant'	Another single from Sweden this has been selected for its very large yellow flowers Ht 12cm	5"
Eranthis hyemalis 'Schlyters Reise'	Lovely single possibly a hybrid x tubergenii meaning a taller plant, and later flowering, with smaller lemon flowers Ht 15cm	6"
Eranthis hyemalis 'Schwelenglanz'	Single group yellow straw coloured flowers which are orange in bud, with a slightly smaller flower which is more lemon in shade Ht 12cm	4"

Eranthis hyemalis 'Zitronfalter'	A lovely single form from Germany, with single pale lemon flowers, rounded petals, flowering later than 'Pauline' Ht 12cm	4"
Eranthis tubergenii 'Sachsengold'	A chunkier species than hyemalis, and taller with thicker stems topped by large golden yellow flowers later than in the season Ht 15cm	6"
Eryngium alpinum 'Blue Star'	Sea Holly' Dramatic! Soft basal toothed glossy foliage, bearing sturdy stems topped mid-summer on, flowers with a central grey-blue cone, and ruff of silver-blue bracts, gorgeous! Ht 75cm	30"
Eryngium variifolium	Tough evergreen perenial, stiff branching stems with silver variegated leaves topped with steely blue egg-shaped flowers, very striking combine with grasses Ht 60cm	24"
Eryngium x zabelii 'Violetta'	A gorgeous 'Sea Holly' a very dark blue form with cone of small deep blue flowers surrounded by rich blue lace ruff-like bracts, on blue stained stem, long lasting Ht 75cm	30"
Euphorbia amygdaloides 'Purpurea'	Wood Spurge' A compact shade-lover, long lasting, acid-yellow flowers on top of deep purple strappy foliage a stunning combination, with flowers and early bulbs (sap can be an irritant) Ht 50cm	18"
Euphorbia 'Excaliber'	AGM An upright, deciduous perennial with purple-red leaves in spring turning grey-green with age and bright yellow flower-heads in summer	36"
Euphorbia griffithii 'Dixter'	A selected form of 'Fireglow' but preferred as the stems and leaves are a darker chestnut colour contrasting well with its striking orange flowers, great autumn colour Ht 75cm	30"
Euphorbia griffithii 'Fireglow'	Good dark green stiff leaves edged orange-red, topped by striking brick red flower bracts fading to yellow after long flowering period during summer	24"
<b>Ferns</b>	<b>We have an extensive and evergrowing list of ferns, please see our list below or email for our current availability</b>	
Fritillaria meleagris mixed	Beautiful 'snakeshead' fritillary, delicate checkerboard markings, more noticeable on dusky pink form, but white is lovely too! Moist soil (but grows on my sand!) Ht 15cm	6"
Fritillaria uva-vulpis	From E.& NW Turkey & Iran in woods & meadows a taller form often multi-headed with nodding bowl-shaped blooms of reddish-purple tipped golden-yellow Ht 40cm	15"
Galanthus nivalis	This 'Snowdrop' doesn't need much introduction will slowly bulk up and spread, giving a lovely combination with winter aconites Ht 15cm	6"
Galanthus nivalis flore pleno	Double form of this bulbous perennial with narrow, grey-green leaves bears solitary, nodding, fragrant, white flowers inner segments marked green at tip Ht 15cm	6"
Geranium 'Anne Thompson'	Considered by many a better form than 'Anne Folkard' produces an exuberant mound of golden foliage, with large black-centred purple flowers	12"
Geranium 'Azure Rush'	Gently spreading stems bearing lovely light azure blue cup shaped flowers similar to 'Rozanne' but lighter colour and more compact, long summer flowering	12"
Geranium 'Bloomtime'	A more compact pink form of 'Rozanne' with very large flowers but in a soft pink with a white eye, and lovely veining, they flower for ages though summer Ht 30cm	12"
Geranium collinum 'Tien Shen Blue'	A rare but hardy form from Tien Shen mountains, Kyrgyzstan, a slow grower with a long flowering period but having beautiful bright blue flowers with dark veins Ht 40cm	15"
Geranium macrorrhizum 'Album'	Useful species in shade, low growing ground-cover, not over vigorous with pale evergreen foliage flushed in Autumn, with lots of blushed buds opening white with pink stamens Ht 30cm	12"
Geranium macrorrhizum 'Ingwersen's Variety'	Excellent for dry shade this spreading evergreen perennial with true pink flowers in the Summer with very fragrant leaves, easy, great ground cover	12"
Geranium macrorrhizum 'Ridsko'	Excellent ground cover for dry shade and offers a long period of bright pink flowers in spring with the foliage taking on autumn colour in that season	15"
Geranium macrorrhizum 'Spessart'	Vigorous, mat-forming perennial with apple scented leaves turning bronze and red in autumn and white flowers flushed pink in summer	12"
Geranium maculatum 'Chatto'	This is a short geranium, ideal for front of border, with beautiful soft grey-lilac flowers above a dome of deeply divided mid-green leaves, sun/pt shade Ht 70cm	24"
Geranium maculatum 'Elizabeth Ann'	Offers a wonderful contrast of a mound of coffee coloured leaves plus many soft-pink cup shaped flowers, second flush if trimmed back after flowering	15"
Geranium maculatum 'Elizabeth Ann'	Offers a wonderful contrast with a mound of coffee coloured leaves plus many soft-pink cup shaped flowers, second flush if trimmed back after flowering Ht 35cm	15"
Geranium maculatum 'Espresso'	Good clumping ground-cover, unusual chocolate leaves, producing a profusion of upward facing purplish-pink flowers with a creamy-white centre late spring to early summer Ht 45cm	18"
Geranium 'Mavis Simpson'	Small spreading, semi-evergreen, greyish-green downy leaves good ground cover, rounded rose-pink flowers opening from early summer to late autumn	9"
Geranium 'Midnight Reiter Strain'	We really love the very dark leaves (slightly variable as seed strain) which contrasts beautifully with its darker blue cup shaped flowers, sun or shade Ht 30cm	12"
Geranium nodosum 'Fielding's Folly'	Discovered by John Fielding, this outstanding more restrained form offers deep crimson veined flowers, typical attractive shiny foliage good in dry shade	12"

Geranium nodosum 'Svelte Lilac'	A great low growing plant for deep and dry shade, with shiny leaves, its creeping rhizomes bear beautiful lilac-pink flowers heavily dark veined June-Oct reliable	24"
Geranium nodosum 'Whiteleaf'	A good variety for shade, this has lilac-purple flowers which are edged white with dark purple veins (rather than usual dk pink) fresh green shiny foliage	18"
Geranium 'Orion'	Bigger flowered geranium, covered with clear violet-blue flowers, red veining, white centre, through summer, spreading habit ideal for groundcover	12"
Geranium 'Patricia'	A shorter and repeat flowering hybrid of G. psilostemon, vibrant magenta flowers with dark centre, with large leaves and stunning autumn leaf colour	24"
Geranium phaeum album	A very useful addition to shady areas in addition to well marked leaves you get a long period in May-June of clean white flowers brightening the shade Ht 30cm	12"
Geranium phaeum 'Lavender Pinwheel'	Clump-forming perennial, with mid-green leaves with chocolate splodges, and a gorgeous pale lavender, darker edged, and staining to centre, making it distinctive, shade	24"
Geranium phaeum 'Lisa'	Coen Jansen intro with foliage of green with dark blotches the centre of the leaf is creamy yellow and a lovely contrast to the maroon flower in spring, useful shade plant Ht 45cm	18"
Geranium phaeum 'Margaret Wilson'	Tolerating sun or part-shade this clump-forming perennial has light green leaves, with fine creamy streaks, topped by very beautiful purple flowers held above the foliage, 24" tough	24"
Geranium phaeum 'Rise Top Lilac'	A good form for sun or shade, strong grower, the leaves are attractively marked with a caramel splodge, pale lilac flowers with a darker central ring, will take dry shade	30"
Geranium phaeum 'Samobor'	An Elizabeth Strangman introduction produces a wonderful mound of chocolate splodged leaves, and fashionable dark-purple flowers	36"
Geranium phaeum 'Springtime'	Classic form of the 'mourning widow' with its dark purple flowers, but it the striking decorative spring foliage suffused green, marbled with a maroon heart	15"
Geranium 'Sirak'	Wonderfully compact and long flowering (2-3 months) hybrid, with large rosy lilac, centred white, open flowers above a mound of soft green leaves	18"
Geranium 'Tiny Monster'	A German hybrid providing a mound of ground covering dark green leaves, bearing large sized cup-like flowers of magenta-pink, one of the longest flowering ones Ht 20cm	8"
Geranium wlassovianum 'Latwijk Star'	Attractive foliage with dark green leaves with a central plum splodge of colour, large blue flowers striped pink in summer, very hardy (-30f) shade tolerant Ht 40cm	15"
Geranium x riversleaianum 'Russell Pritchard'	A useful plant with a trailing habit and with a very attractive and neat mound of grey-green with magenta-pink flowers over a very long period through summer Ht 40cm	15"
Hakonachloa macra 'Albo Striata'	A lovely form of ornamental shade-loving grass, low growing, clump-forming and non-invasive, has creamy-white variegation on green background, good in pots as contrast or specimen Ht 45cm	18"
Hakonechloa macra 'Allgold'	Very beautiful and elegant grass with slender golden yellow leaves, which last well into autumn, contrasts with dark companions, looks great on its own in a pot Ht 40cm	15"
Hakonechloa macra 'Aureola'	AGM Very beautiful and elegant grass with slender yellow striped white leaves, contrasts well with dark companions, but looks great on its own in a pot Ht 40cm	15"
Hakonachloa macra 'Albo Striata'	A lovely form of ornamental shade-loving grass, low growing, clump-forming and non-invasive, has creamy-white variegation on green background, good in pots as contrast or specimen Ht 45cm	18"
Helianthus 'Anne'	Excellent selection by Chris Ghyslen of a 'Carine' seedling with a reflex cream lemon yellow petal in late summer slightly shorter in growth darker older foliage Ht 1.4m	54"
Helianthus 'Carine'	A lovely form with a warmer lemon yellow and larger flowered than 'Lemon Queen' with a good upright habit generally not needing support, appreciating full sun Ht 1.8m	72"
Helianthus 'Lemon Queen'	AGM Strong-growing perennial with coarse, dark green foliage and light yellow daisy flowers, with pale yellow ray florets with a dark yellow central disk	72"
Helianthus 'Miss Mellish'	A wonderful richly coloured perennial sem-double sunflower, seen at Cally Gardens looking stunning, large butter yellow flowers Sept-Aug stocky by nature Ht 1.5m	54"
Heliopsis helianthoides var. scabra 'Asahi'	New (2018) 'False Sunflower' From Hans Kramer, (De Hessenhof) this looked stunning with masses of orange double button-like daisy flowers on a mound of foliage Ht 1m	36"
Heliopsis helianthoides var. scabra 'Burning Heart'	New (2018) 'False Sunflower' Outstanding perennial, with dark purple foliage, black stems contrasting beautifully with its vivid bi coloured red eyed golden flowers Ht 1.15m	42"
Heliopsis helianthoides var. scabra 'Summer Nights'	Flowering from July to Sept in full sun this 'false sunflower' has warm rich yellow flowers held on really dark purple stems, good for cutting and combines with grasses	48"
Helleborus x hybridus (syn. orientalis)	The wonderful 'lenten rose' with their flowers in those lovely subtle colour ranges of whites pinks and purples often tinged green, sometimes spotted	18"
Hemerocallis 'Little Wine Cup'	Compact variety, with narrow, arching leaves and many deep wine-red flowers 2" across, green in the throat, opening in early or mid summer	24"
Hemerocallis 'Stafford'	A classic red stunner with recurved burnt-crimson flowers subtly lined in soft-white from July onwards - and the bonus of light-green foliage in spring	24"
Hemerocallis 'Summer Wine'	This 'daylily' has mid green leaves, then slender stems, in mid summer, bear large fragrant purple red trumpet like flowers with a golden throat, a good do-er	24"

Hesperanthera coccinea 'Major'	(Schizostylis) A South African native, this flourishes in my sandy garden and flowers for ages from July to late November, large clear red flower on a slender stem, lovely! Ht 60cm	24"
<b>Hosta</b>	<b>A much maligned plant due to it's predator but take a bit of care and they look fantastic. However, they not only have outstanding foliage, but they also have impressive upright, and large flowers plus they do extremely well in pots, where it's easier to protect them from pesky predators! We have also extended our range of miniatures, which look great in pots!</b>	
Hosta 'Blue Mouse Ears'	(2008 Hosta of the year USA) One of the larger 'miniature hosta's, thicker leaf being more slug resistant, leaf outers are curved inwards giving the ear shaped form	9"
Hosta 'Country Mouse'	Lovely little hosta, a sport of 'Bill Dress's Blue' offering a pretty white border edging the blue-green heart-shaped leaves, spikes of lavender flowers mid-summer	4"
Hosta 'Dilithium Crystal'	One of the larger 'miniature' hosta's small undulating blue-edged green leaves with lavender flowers, strong grower making a good mound, good pot subject	6"
Hosta sieboldiana 'Frances Williams'	One of my favourites, and the hardest, with large heart shaped blue-green puckered leaves with an attractive yellow-green broad edge to them, good in shade and pots etc	24"
Hosta 'Frosted Mouse Ears'	Miniature Hosta and a sport from 'Royal Mouse Ears' with a blue-green centre of leaf set off by an edging of creamy-yellow, ageing white	6"
Hosta 'Golden Tiara'	AGM A lovely Miniature Hosta with dainty heart-shaped leaves of lightish green edged by a gold rim ageing white, forming a compact mound enjoying shade	6"
Hosta 'Grand Prize'	A colourful sport of 'Grand Tiara' having a green leaf with brighter and showier yellow margins, forming a dense mound that shines out in shade garden.	6"
Hosta 'Lemon Lime'	One of the best miniature hostas ( in American Hosta Society top 10) with wavy edged chartreuse leaves fading to light green, only reaching a height of 5" Hybrid of H. nahaiana, good in posts	5"
Hosta 'Little Black Scape'	H. 'Sum and Substance' seedling heart shaped leaves emerge green changing to chartreuse, a jet black flower scape develops topped with lavender flowers	15"
Hosta 'Little Caesar'	Lovely small to medium hosta, green bordered lanceolate leaf with a lovely clotted creamy white centre making a striking contrast, vigorous, good in pots	8"
Hosta 'Paradise Puppet'	This is an excellent miniture option for ground cover or rockeries, a venusta hybrid, tiny all green, slightly twisted lance shaped wavy green leaves and lavender flowers Ht 10cm	4"
Hosta rectifolia 'Junco'	Obtained from Graham Gough, named at Wisley Garden (after a Japanese trainee student apparently) and offered here for the second time (after Marchants!) I too am drawn by the simple glossy green leaves combined with a fabulous display of purple flowers	15"
Hosta 'Silver Spray'	Introduced by good friend Vera Orsbourne, and pleased to be present at it's debut at Chelsea 2000 HPS stand (Gold!) large blue green seersucker-like leaves edged white, rugose with pale violet flowers medium size at maturity best in shade/semi-shade	15"
Hosta 'Sum and Substance'	Huge, light green leaves joined in mid- to late summer by pale lavender, bell-shaped flowers and due to thickness of leaves is less likely to be attacked by slugs and snails 36"	36"
Hosta 'Twist of Lime'	A sport of 'Lemon Lime' a small pretty form with narrow yellow leaves with a green margin, producing numerous lavender-purple flowers, with vigour Ht 20cm	8"
Ipheion 'Alberto Castillo'	Classic 'Starflower' with narrow strap-like leaves then the bulb offers a beautiful dramatic clean white flower with faint green stripe in late winter and spring Ht 20cm	8"
Ipheion uniflorum 'Charlotte Bishop'	A hardy free flowering bulb, which is dark pink on opening, fading gracefully to a lighter pretty pink scented star shaped flower over a long period thin strappy leaves Ht 25cm	10"
Ipheion uniflorum 'Jessie'	A hardy free flowering bulb (Argentinian native) with a sweetly scented star-shaped deep blue flowers with a darker stripe on each petal, mid-late spring, thin strappy leaves Ht 15cm	6"
Iris sibirica 'Alba'	This graceful Iris will thrive by the waterside or in ordinary good soil. Branching stems of pure white flowers with delicate veining, narrow foliage, a favourite!	24"
Iris sibirica 'Caesar's Brother'	Remarkably intense violet flowers finely flecked and striped at the throat with attractive green strap-like leaves June-July moist, neutral to acid soil, sun- pt shade	48"
Iris sibirica 'Mrs Rowe'	A beautiful old variety, with long narrow sword-shaped leaves, forming dense clumps with lovely delicate pale pink-violet falls and white standards, preferring moist soil Ht 100cm	42"
Iris sibirica 'Shirley Pope'	Eye-catching form long narrow sword-shaped leaves, forming dense clumps and then in late spring slender buds open to wonderfully dark velvety violet flowers moist soil Ht 90cm	36"
Jeffersonia diphylla	Beautiful North American woodland species with pretty clean white bowl shaped flowers and attractive twin winged leaves all through the growing season Ht 30cm	12"
Kniphofia 'Alcazar'	Excellent easy form, free flowering with spikes, arising from clumps of fine green leaves, of initially bright yellow buds, opening to flaming red tubular flowers Jun-Sept Ht 1m	36"
Kniphofia 'Lemon Popsicle'	The 'Popsicle' series are an outstanding improvement on 'pokers' repeat flowering is just one factor! Dwarfier form, usual grassy foliage, with sweet lemon yellow upright spikes from Summer to Autumn covering this fantastic poker	30"

Kniphofia 'Papaya Popsicle'	New (2013) An all-summer prolific bloomer which has a very short compact habit regular spikes of flowers the color of ripe papayas Red/Yellow	30"
Lamium orvala	From lovely plantswomen Beryl Glanville a hardy and attractive 'dead nettle' a very upright habit non-running woodlander dark attractive leaves with large peachy-pink flowers	15"
Lamium orvala alba	Hardy and good looking 'dead nettle' non-running woodlander with large attractive leaves and pretty white flowers useful in shady areas	15"
Leucanthemella serotina	AGM A nurseryman's nightmare being over 6' and when blown over develops all sorts of kinks in the stem! So it is a rarely seen but good clump-forming perennial forming cheerful pure white daisies with a lemon-yellow middle from early autumn	72"
Lunaria annua 'Chedglow'	A hardy biennial 'Honesty' with wonderful chocolate markings on leaf and in April to early May lilac flowers, leaving its translucent disc-shaped seed heads	36"
Lunaria 'Corfu Blue'	Wonderful 'Honesty' blue-purple flowers leaving purple-flushed flushed papery seed-heads, tolerates shade, suckers (gently) and self-sows (gently)	36"
Lunaria annua 'Rosemary Verey'	Similar to 'Chedglow', deep purple heart shaped leaves, but spotted green, topped in spring by pretty bright violet flowers, with dried 'coins' seed 'Honesty'	24"
Lunaria annua variegata 'Alba'	The white flowered variegated form of 'Honesty' a short-lived perennial generally flowering in the second year, very eye-catching and looks good in the shade it favours	24"
Lysimachia ephemerum	Definitely a 'posh' loosestrife, upright, waxy grey-green leaves and stems topped with elegant tapering spikes of pure white flowers and pink stamens	36"
Maianthemum canadensis	Canadian 'Maylily' this is a ground covering woodlander with spikes of dainty creamy-white fluffy flowers in spring and bright green foliage lasting into autumn	6"
Maianthemum racemosa	(syn Smilacaena) Interesting 'solomon's seal' relative enjoying shade/semi-shade with broader leaf and a surprising fluffy creamy-white flower spray	15"
Maianthemum racemosum 'Emily Moody'	(syn Smilacaena) Rare form of this woodland native larger than normal arching sprays of fluffy scented cream flowers April to June with bright red berries following	18"
Meconopsis cambrica	A beautiful (Welsh) poppy, a nursery favourite, undemanding with a lovely lemon yellow poppy flower, from Spring onwards, happy in sun or shade, self seeds gently Ht 30cm	12"
Melica uniflora variegata	Very pretty and graceful variegated woodland grass, grow in drifts in damp shade to brighten up dark areas, rarely found as its slow to bulk up	12"
Millium effusum 'Aureum'	Lovely 'Bowles Golden grass' very pretty delicate grass, loves shady areas, it lights up when the sun strikes it, softens surrounding plants, spreads very gently by seed Ht 40cm	15"
Miscanthus nepalense	Bold clumps of elegant green foliage with plumes of drooping architectural flowerheads of old gold summer and autumn, hardier than its reputation surviving at the nursery outside in pots	48"
Molinia 'Dark Defender'	New to us (2011) From the wonderful Marina Christopher, this very good dark and shorter form apparently does not fall over in the winter keeping interest far into the Autumn and Winter	36"
Mukdenia rossii 'Crimsons Fans'	Rarely offered this lovely woodlander, with bronzy-green leaves that turn a vivid crimson in the Autumn it has white bell-shaped flowers in the spring	12"
Nepeta nuda 'Romany Dusk'	From Paul Barney, this stood out in the 2019 Nepeta trials at RHS Wisley, vertical, non-flopping splendidly dark stems topped by masses of small pale pinky-blue flowers in late summer Ht1.2m	48"
Omphalodes verna	Clump-forming (creeping) stems, with an intense forget-me-not blue flower, good tough plant that doesn't need coddling even in dry shade!	12"
Paeonia 'Duchesse De Nemours'	Fabulous clean pristine white double fragrant flowers on upright stems from glossy dark green foliage, a favourite of the cut flower industry	36"
Paeonia 'Jadwiga'	Full double deep pink to purple, showing yellow stamens between petals, sends up lots of flowering shoots that last well, used in cut flower industry	42"
Paeonia 'Kansas'	Watermelon red flowers come early in the season and hold their colour well even under hot, sunny weather conditions, used in cut flower industry	36"
Paeonia lactiflora 'Sarah Bernhardt'	Beautiful soft pink double flowers with fragrance, and often forgotten attractive foliage often attaining good colour in autumn	36"
Paeonia lactiflora 'Solange'	From June on beautiful double cream flowers with salmon pink centre (rare colour) and perfumed with dark leaves best grown in sun and rich moist soil	42"
Paris quadrifolia	European form of this shade lover that has a whorl of four leaves and a curiously spidery green and yellow flowers in May if happy has gently creeping rhizomes Ht 20cm	9"
<b>Persicaria</b>	<b>Outstanding perennial becoming more popular partly due to the breeding of new colours by Chris Ghyselen for one. They are sizeable plants but they are tough, robust and need no staking, not only that, they flower for ages and are good in shade! Currently an assessor on the RHS trials at Wisley</b>	
Persicaria amplexicaulis Alba	This is a special robust and shapely plant many tall spikes of white flowers from dark stems over dark green spear-shaped leaves Jul-Oct. Lovely Ht 85cm	42"

Persicaria amplexicaulis 'Blackfield'	Excellent form with dark blood-red flowers open from black-red buds in spikes Jul-Oct, 70cm but neater if the spear-shaped leaves are cut down in April or May. Robust plant	36"
Persicaria amplexicaulis 'Fat Domino'	Wonderful dark red flower spikes (one of the darker ones) rise up from attractive spear shaped foliage, clump forming	36"
Persicaria amplexicaulis 'J S Caliente'	Recent shorter introduction with attractive long bright red flower spikes making an impact July-Oct, sun or part shade	24"
Persicaria amplexicaulis 'Jo & Guido's form'	Intoduced from Belgium, rarely found, a good tough, with good soft pink flowers that continue over long period, will take dry shade and needs no staking Ht 1.3m	42"
Persicaria amplexicaulis 'Orange Field'	Such a valuable plant for summer/autumn border, from Chris Ghyselen with endless spikes of salmon -rose flowers, trouble free no staking required!	42"
Persicaria amplexicaulis 'Rowden Gem'	Lovely fresh green foliage topped in late summer with lots of long lasting upright spikes covered in light pink flowers, remarkably tough and great for shade too Ht 90cm	36"
Persicaria amplexicaulis 'Superba'	Very tough and reliable plant with upright sprays of light pink flowers appearing like thin rockets over a long period during the summer, and in shade too!	42"
Persicaria bistorta 'Superba'	Tough spreading form good groundcover with typical spear-shaped leaves, then late spring a long period of tall pink flower-spikes prefers damp but tolerates dry Ht 40cm	15"
Persicaria polymorpha	Outstanding tall perennial with strong stems and pointed green leaves, plumes of tiny creamy-white flowers turning bronze-pink in the autumn. Recent name change to Persicaria alpina	60"
Phalaris arundinacea var. picta 'Feeseey'	A brighter variegated form with a pink tinge to it, very vigorous, so best in a pot, or covering a large area, a superior form of 'Gardeners garters'	24"
Phlox divaricata 'Clouds of Perfume'	Spreading, low-growing, semi-evergreen perennial with, evergreen, mid-green leaves and clusters of fragrant, pale blue flowers in early summer	12"
Phlox maculata 'Natasha'	A very striking form with an unique floral pattern - a combination of white and pale lavender-pink radiant flowers, mildew resistant, and scented	24"
Phlox paniculata 'Hesperis	Lovely variety from Coen Jansen soft lilac with with a contrasting brighter eye. About 2ft 9in tall and flowering from late July good contrast with shorter grasses	33"
Phlox paniculata 'Rosa Pastell'	Large slightly relaxed pale slightly salmon-pink flowers in large strong heads from dark buds July - Sept, Very beautiful and scented!	36"
Phlox paniculata 'Tenor'	Erect, perennial with lance-shaped, mid-green leaves and upright panicles of bright red scented flowers from summer to early autumn	36"
Phlox paniculata 'Uspek'h'	Unusual colouring of this vigorous late summer favourite with arresting purple with white star centred flowers July - Sept, and of course scented	36"
Podophyllum hexandrum	Himalayan Mayapple' From China a green leaf with reddish-brown marbling emerges like an umbrella early spring then pale pink bell-like flowers emerge underneath Ht 30cm	12"
Podophyllum 'Kaleiderscope'	Fantastic shade-lover with a shoot like a crumpled rocket emerging in the spring transforming into highly decorated parasol leaf, with dark red pendant flowers	12"
Podophyllum peltatum	An eye-catching plant its foliage consists of very large shiny green palmate leaves in spring into summer then a white flower, great for dryish shade	12"
Podophyllum versipelle	Rarely offered this chinese form has a tall stem and one large umbrella leaf from which hang 2-15 rounded dp purple-garnet red lasting many weeks	24"
Podophyllum versipelle 'Spotty Dotty'	Remarkable eye-catchingly large dinner plate sized palmate heavily marked leaves in early summer then pendulous dark red flowers appear, good in shade Ht 40cm	15"
Polygonatum cirrhifolium (Red Form)	Rare architectural clumps of leafy arching stems of this Solomons Seal pendant orange red bells hang from each leaf axil enjoying shade	36"
Polygonatum falcatum 'Variegatum'	Very graceful form of 'Solomon's Seal' with a decorative reddish stem, delicate cream edge to leaves, with lovely creamy pendant bell-like flowers in spring shade Ht 50cm	18"
Polygonatum humile	Vigorous miniature form of 'Solomons seal' lovely crinkled leaf with familiar cream drooping bells up flower stem followed by blue-black fruits	6"
Polygonatum x hybridum	The classic 'Solomon's Seal' beloved of cottage gardens with graceful upright but drooping stems dripping with creamy bell-like flowers	36"
Polygonatum x hybridum 'Betberg'	A rare form with emerging stems and young leaves stained chocolate-brown, contrasting well with creamy pendant flowers grow in full sun for best colouration	48"
Polygonatum x hybridum 'Golden Gift'	(multiflorum x odoratum) Unusual form, variable golden streaks through leaf when young progressing to the whole leaf colouring to burnished gold, cream flowered Ht 90cm	36"
Polygonatum x hybridum striatum	Good form of solomons seal with strongly variegated leaves streaked creamy-white, creamy bell shaped flowers down stem	24"
Polygonatum x hybridum 'Weihanstephan'	A much taller variety of this classic woodland garden 'Solomon's Seal' with wonderful arching stems up to 1.5m tall with hanging cream bells in late spring	54"
Polygonatum odoratum v.pluriflorum 'Variegata'	From Japan perennial with creeping rhizomes bearing slender arching stems carrying white bell like flowers with green tips, during May and June, enjoying shade	24"
Polygonatum verticilliatum	Slowly creeping stout rhizomes forms small thickets of erect rather dark green robust stems, with many whorls of narrow lanceolate leave, white flowers in axil	48"

Pulmonaria 'Blue Ensign'	Outstanding variety whose dark green leaves emerge in spring with flowerstalks topped with vivid royal blue blooms after which the leaves disappear, tidy!	12"
Pulmonaria 'Cotton Cool'	Vigorous variety with a fully silvered leaf, contrasting beautifully with blue flowers fading pink, worth having for foliage alone, cut back flowers when they have finished the silver leaves then erupt from the centre extending interest for months	12"
Pulmonaria 'Diana Clare'	The best pulmonaria (Bob Brown) six months of long silvered apple-green foliage in graceful rosettes preceded by large purple flowers Feb-Apr	15"
Pulmonaria 'Ice Ballet'	(New 2014) In my view one of the best & robust white flowering 'lungworts' with attractive white spotted almost shiny apple-green leaves, with pure white flowers	12"
Pulmonaria 'Opal'	Wonderful clusters of pale cambridge blue flowers which nestles above small neat leaves variously blotched and spotted with silver, cut leaves back for 2nd flush Ht 25cm	9"
Pulmonaria rubra 'Redstart'	Attractive vigorous form of this early woodlander with light green foliage and flowerheads of large dusky red flowers, good groundcover in shade	15"
Pulmonaria saccharata 'Dora Bielefeld'	Wonderful spring shade lover this has coral pink buds opening to soft rose pink flowers good contrasting fresh green spotted leaves. Any good soil.	12"
Pulmonaria 'Silver Bouquet'	(New 2018) Bred for resistance to mildew, producing a mound of elegant long heavily silvered leaves, then in spring large coral to pink to violet flowers, prefers shade	15"
Pulmonaria 'Stillingfleet Meg'	Very early variety that has pretty flowers that open pink and changing to blue as they age, arising from a clump of attractive white spotted mid-green leaves	10"
Pulmonaria 'Trevi Fountain'	Very striking almost vivid cobalt blue flowers, thought to be the longest blooming lungwort, above handsome dark green, freckled silver foliage, good shade any soil Ht 30cm	12"
Ranunculus 'Rococo Orange'	A new (2020) hardy hybrid (x asiaticus) from John Fielding with long strong stems bearing April- June beautiful semi-double cup shaped blooms of hot orange summer dormant Ht 70cm	30"
Ranunculus 'Rococo Pink'	A new (2020) hardy hybrid (x asiaticus) from John Fielding with long strong stems bearing April- June beautiful semi-double cup shaped blooms of sugar-pink summer dormant Ht 70cm	30"
Rodgersia 'Dark Pokers'	Handsomely attractive foliage, large leaves turn reddish-bronze in the autumn tall pinkish-red flowers bloom with aroma of burnt sugar late spring early summer	30"
Rodgersia 'Maurice Mason'	Although this is a damp lover it still does well in dryer areas, forming wonderful reddish-bronze serrated plate sized leaves contrasting pink flowerspray	24"
Rodgersia pinnata 'Buckland Beauty'	AGM Great variety with it's deep green pleated palmate leaves on branched stems give way to flower spikes of wonderful pink feathery flower heads	36"
Rodgersia pinnata 'Die Schone'	Very early, with large pleated, deep green leaves with bronze overcast, striking bright deep rose-pink flowers late June, prefers soil that doesn't dry out	36"
Rodgersia pinnata 'Elegans'	Bold foliage of deeply divided copper tinted dark green leaves give rise to a flower spike bearing fluffy pink star shaped flowers	48"
Rodgersia pinnata 'Hercules'	Large bronze tinged leaves on robust stems with spikes of rose-pink flowers June-July prefers partial shade does well even in relatively dry soil	42"
Rodgersia pinnata 'Superba'	Wonderful clump-forming perennial with large bronze-tinted pinnate leaves and long spikes of sprays of small pink flowers appreciates damp semi-shade	48"
Rodgersia purdomii	Very impressive bronze-green large palmate leaves tolerating shade and even some dryness but prefers moisture, pinkish flower plume	24"
Roscoea 'Cinnamon Stick'	New 2013 This hardy ginger has sturdy dark stems topped by pinkish-lilac lipped flowers good in sun or part-shade, provide drainage	12"
Roscoea purpurea 'Spice Island'	Hardy ginger with dark leaves deep red backs and thick red stems offering Lavender-Purple orchid-like lipped flowers on top, quite happy in shade	15"
Rudbeckia fulgida var. deamii	Very striking N. American 'coneflower' with it's vivid orange-yellow daisy petals and a rich brown central boss flowering mid-summer and long into autumn Ht 60cm	24"
Rudbeckia fulgida var. sullivantii 'Goldsturm'	One of the best known (for good reason), easy and reliable with compact habit offering deep yellow daisy flowers with striking black centre apr-may -sunny	36"
Rudbeckia lanciniata 'Herbstsonne'	Yellow daisy flowerheads, with reflexed ray-florets and black, brown or green conical centres and disc-florets borne on long stems from summer to autumn	72"
Salvia 'Amistad'	Outstanding cultivar which with regular deadheading provides flowers from late spring to mid-autumn striking near black stems and calyces with purple flowers Ht 1.2m	48"
Salvia microphylla 'Cerro Potosi'	AGM A really good form with a striking magenta-pink flower in profusion held on slender stiff dark stems, forming a nice mound, dryish, well drained sunny spot Ht 50cm	24"
Salvia nemerosa 'Caradonna'	Very versatile plant good in borders/pots, blackish-purple stems with dark purple bracts and violet-blue flowers stunning! Trim faded flower spikes for new flush of flowers	18"
<b>Sanguisorba</b>	<b>The late excellent plantsman David Way must take credit for my interest in these plants, unlikely to be the star but they will certainly add colour, movement, interest, and height. They are excellent, and exciting, combined with other perennials and grasses. If interested please email for an up to date plant list. 2018 Update, delighted to have been asked to be an assessor for the 3 year RHS Plant trial of Sanguisorba held at Wisley trial grounds.</b>	

Sanguisorba albiflora	Late summer flowering japanese form, erect flower spike supports many nodding heads of white 'caterpillar-like' flowers	18"
Sanguisorba albiflora 'Cindy's Tall White'	As the name suggests this is a taller form from Pineview Nursery, with long lasting burr-like white flowers held above fresh green attractive foliage	30"
Sanguisorba 'Blackthorn'	Outstanding variety selected by the great plantsman Robin White this later flowering and taller variety has upright longer crushed berry red-pink flowers in August to October	36"
Sanguisorba 'Burr Blanc'	A Graham Gough discovery that offers long standing creamy-white burrs on top of a slender stem, and fine divided foilage (and yes it is meant to be spelt like that!)	42"
Sanguisorba canadensis	Very tall self-supporting form unusual in that its white fluffy long upright flowers open from the bottom up and attractive young foliage, good with grasses	5'
Sanguisorba 'Chocolate Tip'	With a darker flush to its attractive divided and serrated leaves it bears reddish-chocolate 'burrs' on stiff uprightstems contrasting well with smaller grasses	30"
Sanguisorba 'Crangshan Cranberry'	One of the finest tall varieties, long stems topped with dark purple-red flower spikes lasting well into winter, (syn.S.DJHC 535) China collected Dan Hinckley	72"
Sanguisorba 'Filly Green'	(syn. Armena) forms a mound of wonderful soft silver-sheened apple green dissected leaves great for the border, a great foil for its neighbours, small fluffy white flowers	36"
Sanguisorba 'Henk Gerritsen'	New (2011) & excellent vigorous variety named after Piet Oudorf's co-author, with an upright slender form an open branched habit with sprays of tiny red burrs	60"
Sanguisorba 'Korean Snow'	Very vigorous and tall hybrid with large 2" flowerspike of fluffy white flowers on slender stems rising high above dissected foliage, very choice	54"
Sanguisorba 'Lum'	A shorter variety of 'Burnet' and earlier flowering about May-June, offering neat bright dark red burrs in June with paired with attractive bluey-green dissected foliage Ht 60cm	24"
Sanguisorba magnifica	Bright pink flowered Russian form, very pretty with its lax fat fluffy pipe-cleaner type flowers over bluish leaves, about 2'	24"
Sanguisorba menzesii	Extremely good form with unusual red ribs and stems, contrasting well with its grey-blue leaves, bears small dark red flower head	24"
Sanguisorba minor 'Little Angel'	Unusual form in dwarfness and variegation, making low neat mound of creamy and green foliage, topped by masses of spikes with darkish red burrs over long period Ht 30cm	12"
Sanguisorba obtusa	Wonderful perennial with stiff flower stems arising from basal grey-green serrated, dissected leaves bearing small fluffy dark pink bottle-brushlike flowers	24"
Sanguisorba off. 'Pink Tanna'	This lovely burnet has glossy green foliage with upright stems will repay a sunny spot with masses of pink rounded flowers all through summer, stunning	30"
Sanguisorba off. 'Tanna'	This is a vigorous short 'burnet' offering many dark red burr's on stiff short flower stems from attractive fine feathery foliage	18"
Sanguisorba off. x CDC282	A korean collection, very vigorous flowering, compact spikes of dark red pipe cleaner flowers, a form of officianalis with usual feathery foliage	24"
Sanguisorba 'Pink Brushes'	New (2011)Tall upright stems are topped with tight, pink flowers that open from red buds above a mound of long, deeply divided leaves. lovely see-through plant	48"
Sanguisorba 'Red Thunder'	An outstanding variety and has proved popular in nursery sales with wands of rich red 'burrs' waving amongst late summer perennials adding height and interest at a metre high	36"
Sanguisorba 'Sussex Prairies Cheyenne'	New form (2014) Tall and striking upright form with large dissected leaves and upright fine fluffy white tassles over a long period	72"
Sanguisorba 'Sussex Prairies Iroquois'	New form (2014) Another tall form with an abundance of extremely striking pink curly wurly tassel-like flowers held well above leaves in mid to late summer	72"
Sanguisorba 'Sussex Prairies Iroquois Alba'	New form (2014) Another tall form with an abundance of extremely striking white curly wurly tassel-like flowers held well above leaves in mid to late summer	72"
Sanguisorba 'Sussex Prairies Navaho'	New form (2014) this has big red burr's, at 2m this is a tall form, with very upright and long serrated leaves which has some silvering	72"
Sanguisorba tenuifolia 'Baby Elephant'	A shorter (still quite tall!) form of S. tenuifolia 'Pink Elephant' with a lovely pink fluffy drooping burr, combines beautifully with grasses with its slender upright form	42"
Sanguisorba tenuifolia 'Pieters'	Great variety, quite early to flower, and then you get masses red bobbly 'burrs' on slender stems giving height and movement through summer any soil and sunny spot Ht 1.2m	48"
Sanguisorba tenuifolia 'Pink Elephant'	Lovely new selection of S.tenuifolia with finely divided light green foliage from which emerges tall spikes of deep rosy-pink flowers from summer onwards, sunny open spot	48"
Sanguisorba v.hakusanensis	Extremely pretty large fluffy pink flowers held at 90° to wiry stem with a 'crook' make this a strikingly attractive tough but delicate looking korean native	36"
Sanguisorba v. hakusanensis 'Lilac Squirrel'	New (2011) Shorter form with wonderful blue-green foliage topped by remarkable thick fluffy curving pink flowers, flowering June -July	24"
Sanguisorba v. hakusanensis 'Pinky & Perky'	Pineview Introduction, with all the hallmarks of the species with attractive dissected blue-green leaves, this has the same fluffy flowers but much brighter pink, most soils, most conditions Ht 90cm	36"

Sanguisorba 'White Tanna'	New to us (2012) despite name not an 'officialialis' variety, it is taller and with better foliage than 'Tanna', carries many long white fluffy burrs above 'ferny' foliage	18"
Saponaria officianalis 'Betty Arnold'	This is a beautiful Soapwort, tough, and with ambitions, but it has the loveliest clear white double flowers, that will make the front of your border stunning! Ht 60cm	24"
Sedum 'Xenox'	Loved by bees and butterfly's excellent variety, forming a compact mound of dusky purple foliage then Aug-Oct heads of reddish-pink flowers bloom above, lovely contrast Ht 30cm	12"
Sedum 'Purple Emperor'	Very dark purple succulent leaves are a good addition to any border, and the soft pink add contrast late summer, good with smaller grasses	24"
Selinum wallichianum	Rarely offered architectural perennial with bright green beautiful dissected foliage new stems have a pinkish tinge which bear frothy white umbel flower heads	54"
Semiaquilegia ecalcarata	Native of China this cousin of aquilegia is low growing with very attractive foliage with graceful nodding deep-violet to deep purpled flowers, enjoying dappled shade Ht 40cm	15"
Silene fimbriata	(Fringed Champion) Rosettes of soft, bright green leaves in late spring, and summer, it bears feathery fringed white flowers backed with fat light green calyxes, all time nursery favourite	18"
Sisyrinchium 'E. K. Balls'	Sterile hybrid, so keeps flowering, May-Sept useful small size, with sword-like grassy foliage, followed by an abundance of deep purple-blue flowers with a golden eye Ht 15cm	6"
Solidago x Aster 'Lemores'	(New 2012) Obtained from Chris Ghyselen and offers a lovely soft yellow 'golden rod' smaller and considered not as vigorous as it's parent, a nice thing!	36"
Stipa barbata	'Silver Feather Grass' Above neat clumps of thin leaves appear long (38 cm) silken, silvery-green awns which wave and shimmer in the slightest breeze	30"
Stipa gigantea 'Fontaene'	Believed an improved form of this classic 'see-through' grass, it produces a wonderful spray of oat-like panicles on top of tall slender stems, don't crowd it and it will repay you, fantastic! Ht 2m+	7'
Stipa pseudoichu	Peruvian needle grass' elegant mounds of bright green then topped by very pale, long feathery shimmering silver flowers all summer, sun and drainage Ht 1.2m	48"
Stipa tenuissima	A wonderful tactile soft 'wafty' grass that almost defies you not to stroke it! Needs very little care don't sit it in winter wet and give it a comb in the spring!	15"
<b>Thalictrum</b>	<b>Another nursery favourite, these 'meadow rue' offer so many qualities to the summer border offering flower through the summer, an elegance of form, and in most selections delicate attractive foliage</b>	
Thalictrum acteaifolium v brevistylum BSWJ8819	Very distinct species collected Wolch'ulsan S Korea, this robust perennial tall with large dissected slightly lobed leaflets pink & white fluffy flowers	48"
Thalictrum aquilegifolium	Elegant attractive 'see through' foliage on slender stems with flowerheads of pink or white fluffy flowers make this a plant that combines well in most borders, easy	54"
Thalictrum aquilegifolium 'Black Stocking'	A lovely form of meadow rue with fine foliage on black stems with flat fluffy flowerheads of lavender flowers in summer	54"
Thalictrum aquilegifolium 'Thundercloud'	Very lovely form with slender stems and delicate foliage topped by lovely rich lilac-purple fluffy flowers in June-July, no staking required can take a bit of shade	48"
Thalictrum dasycarpum	'Purple meadow rue' Lovely purple tinged vigorous stems with attractive dissected foliage topped by pretty fluffy white or pinky-purple flowers	48"
Thalictrum delavayi 'Ankum'	From Coen Janssen this is a lovely form with attractive airy finely divided fresh green foliage complimenting dark stems and lilac petals and cream stamens	60"
Thalictrum delavayi 'Splendide'	Good 'see through' perennial with large airy clusters of purple flowers with cream stamens on tall stems over short open foliage	60"
Thalictrum dioicum	A subtle form of this meadow rue with attractive ferny foliage topped with a haze of small pinky-green fluffy flowers, graceful and good for flower arrangers	48"
Thalictrum 'Elin'	Steely-blue foliage, very sturdy with open sprays of pale yellow and lavender fluffy flowers, in very damp rich soil can get to 12'!	60"
Thalictrum flavum 'Illuminator'	New foliage soft creamy grey with yellow markings, creamy yellow flowers in early summer, taller in moist conditions but fine in drier, takes some shade	48"
Thalictrum flavum ssp glaucum	An excellent variety offering a foaming mound of blue dissected foliage contrasts superbly with flat flower-heads of small yellow flowers	42"
Thalictrum 'Freefolk Purple'	A really tall form with large masses of dark pinkish-purple petalled flowers with cream stamens held on open structured dark slender branched stems beautiful!	84"
Thalictrum hybrid 'Splendide Album'	Good 'see through' perennial with large airy clusters of white flowers with cream stamens on tall stems over short open fresh apple green foliage	60"
Thalictrum lucidum	A Piet Oudorf favourite, vigorous with unusual shiny 'yew-like' leaves, and yellow fluffy flowerheads reputedly having a rose-like fragrance	60"
Thalictrum morisonii v mediteranium	An unusual form, raised from seed similar in form to T.angustifolium or lucidum, broader shiny dissected leaf, and creamy-yellow fluffy flowers	54"

Thalictrum przewalski 'HeHeHe103'	This is a shorter N. Chinese form from De Hessenhof with exceptionally beautiful fine foliage and in May, topped by plumes holding masses of white fluffy flowers 90cm	36"
Thalictrum pubescens	(syn polygamum) Light apple-green delicate leaves on this elegant perennial topped by white sometimes purple fluffy flowers, quite tall and robust	48"
Thalictrum rochebrunianum	Very robust variety similar to delavayi but with purple colouring to stems and large pink and white flowers in July, not too dry	48"
Thalictrum sphaerostachyum	An improved form of T. flavum but has better blue leaves and the flowers are fuller and more massed, very lovely yellow fluffy flowers and very amenable	60"
Thalictrum tuberosum	Lovely compact form of 'Meadow Rue' with delicate grey-green leaves topped by comparatively large creamy white open flowers, happy in sun or light shade Ht 75cm	30"
Tradescantia andersoniana 'Temptation'	Tougher than it looks garden plant, with upright dark green leaves, in early Summer to Autumn bears beautiful soft pink flowers with a soft pink fluffy centre Ht 45cm	18"
Tradescantia ohiensis	Native to Ohio USA this 'spiderwort' is a taller form with green upright leaves and lovely deep blue flowers with a fluffy central boss, sun or shade, even dry shade	30"
Tradescantia virginiana 'Sweet Kate'	Very eye-catching form, showing up in shade with chartreuse foliage of golden-yellow slim pointed leaves contrasting with its striking purple-blue flowers Ht 30cm	12"
Tricyrtis 'Blue Wonder'	Toad Lily', hardy suiting all shady conditions forming a mound of dark green leaves, late summer, long arching stems bearing many white flowers heavily spotted blue-purple Ht 60cm	24"
Tricyrtis formosa stolonifera	Taiwan native with dark green glossy leaves, it flowers on long stems, are light mauve in colour with darker spots and a pretty yellow throat shade-lover	36"
Tricyrtis formosana 'Dark Beauty'	Toad Lily' Unusual, star-shaped purple-spotted flowers from Aug-Sept and smooth dark green leaves, late flowering autumn woodlander	12"
Tricyrtis hirta	Toad Lily' Japanese, clump-forming deciduous hardy perennial grows in shady spots large green leaves topped by striking white spotted purple flowers Autumn Ht 75cm	30"
Tricyrtis hirta 'Albomarginata'	A very useful shade plant as 'Toad Lily's' bloom late summer into autumn and brightens areas with its unusual speckled creamy-white flower, and this has cream edged leaves Ht 30cm	12"
Trillium vaseyi	One of the tallest forms 'Sweet Wakerobin' gets almost 2ft high bearing one of the largest dark maroon flowers from May on in shady areas Ht 60cm	24"
Trollius x cultorum 'Alabaster'	Beautiful form of 'Globe flower' with it's pale ivory to lemon cream goblet shaped bloom preferring damper soils and doing well in sun and part-shade Ht 75cm	30"
Tulbaghia violacea	Bulb from South Africa with a long period of delicate violet (occasionally white) flowers on slender stems similar treatment to agapanthus	12"
Uvularia grandiflora	Lovely little woodland plant lifts the heart with bright yellow slightly twisted petalled pendants of bell-shaped flowers on dainty slender stems lighting up borders Ht 20cm	9"
Verbascum 'Pink Domino'	Really pretty shorter perennial form, with a basal rosette of dark green, wrinkled leaves and erect spikes of dark-eyed, deep rose-pink flowers	48"
Verbena maddougallii 'Lavender Spires'	A tall and rigid verbena with upright and branched spikes and these support masses of small deep lavender flowers, blooms all summer into the autumn	48"
Vernonia crinita 'Mammoth'	Clusters of large purple-crimson flowers on upright stems in summer, as these die, the fluffy white seeds feature, turning shades of rust-orange	60"
Veronica longifolia 'First Lady'	A beautiful compact variety, forming a low mound of dark green foliage, starting June and through summer pure white flower-spikes emerge, (dead-head for longer) Ht 30cm	12"
Veronica longifolia 'First Love'	A beautiful compact, clump-forming perennial producing glossy mounds of green leaves topped by masses of narrow spires of fluorescent rose-pink flowers Ht 30cm	12"
Vinca minor 'Illumination'	Wonderful bright yellow variegation, edged dark green with lovely sky-blue flowers, great groundcover not as invasive as it elder brother!	3"
Viola 'Heartthrob'	Lovely heart-shaped leaves with deep burgundy centres and contrasting bright green leaf edge, dainty pink blooms appear in spring before leaves	6"
Viola 'Silver Samurai'	Lovely large striped and ruffled purple flowers early spring, complimented by handsome dissected silvery green foliage	6"
Viola veracunda BSWJ604A	Collected by Crug Farm in Korea unusual species, from rosettes of heart shaped leaves emerges in spring beautiful large white flowers stained blue in centre, shade Ht 15cm	6"
Zantedeschia aethiopica 'Green Goddess'	A South African native, moisture loving, with shiny spear shaped leaves, bearing white trumpet-like flowers with a green pointed lip	18"
